Full Face Respirator and Accessories

5-Point Head Harness and Clasps

5-point strap helps provide a more secure fit; clasps provide quick, easy adjustments.

Dynamic Face Seal Flange

NIOSH Approved for S, M and L face sizes.

Bayonet Cartridge Connections

Allow quick and easy use of a wide variety of Gerson cartridges

SILICONE RUBBER

Optical Quality Polycarbonate Panoramic Lens

Provides 90% field of vision.

Inner Orinasal Cup

Made of silicone rubber to provide maximum comfort. Prevents lens fogging.

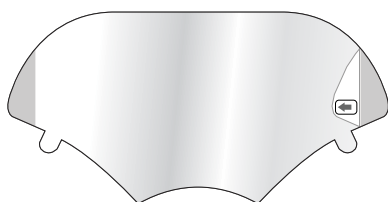

Protective Valve Cover

Protects exhalation valve from grinding particulates and overspray.

FULL FACE RESPIRATOR

DESCRIPTION	MODEL #	PART #
Silicone Full Face Respirator	9955	089955

Packaging: 1/box, 2 boxes/case

FULL FACE ACCESSORIES / REPLACEMENT PARTS

DESCRIPTION	QUANTITY	PART #
Protective Lens Film Peel-Offs*	100/case	08711122
Full Face Valve Replacement Kit	10/case	0871955V
Head Harness	1/case	08711613
Bayonet Gasket	10/case	0870226
Spectacle Kit	1/case	0870809

9500 Series Half-Mask Respirator

Advanced function

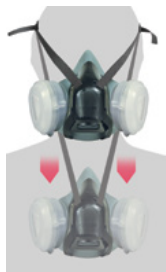

DROP DOWN RESPIRATOR

9500 SERIES NEXT GENERATION FEATURES

9500 Series Advanced Function Half-Mask Respirator is engineered to allow drop down use without rethreading

- > Slick new design incorporating 5 advanced features.
- > Liquid silicone rubber.
- > Quick 1/4 turn bayonet connection.
- > Bonus Hygiene Guard for clean storage and product protection.
- > Packaged in attractive 4-color foil bags with pegboard hanging hole.

Advanced **QuickDrop™** function system is designed for easy removal of mask from face **without rethreading** or the need to remove protective headgear or eyewear.

2 STEP COMFORT

Suspend the mask to interact with your co-workers. Quick adjust clip allows you to easily put it back on without removing headgear.

Valve Cover

Protects valve from overspray
Directs breath downward to prevent fogging

Adjustable Head Cradle

Precise fit and comfort

Liquid Silicone

Ultra comfort and durability

Quick Turn

1/4 turn bayonet connection

* **WARNING:** Not NIOSH approved for ozone protection, organic vapors, or acid gases. Nuisance Level refers to concentrations not exceeding the OSHA PEL or applicable government standards for exposure limits, whichever is lower. Do not use in or around sandblasting operations.

Disposable Paint Spray & Pesticide Respirator

ONE-STEP™ DISPOSABLE RESPIRATOR

NIOSH OV/P95 Approved

Typical uses: paint spray applications and pesticides

- Premium quality TPE for greater comfort.
- OV Cartridge with premium quality non-degrading P95 filter for multi-shift use against solid & liquid aerosols, including oil-based aerosols.
- OV/P95 filter provides at least 95% filtration efficiency against organic vapor, solid and liquid aerosols, including oil based aerosols.*
- Completely assembled and individually packed in resealable foil bags.
- Bonus Hygiene Guard for clean storage and product protection.

Cartridges not replaceable.

DESCRIPTION	MODEL #	PART #
TPE Half-Mask Respirator (sm)	8111	0871418
TPE Half-Mask Respirator (med)	8211	0871501B
TPE Half-Mask Respirator (lg)	8311	0871502B

Packaging: 1/bag, 12 bags/case

"P" Level non-degrading filter does not require change-out at end of every shift. Reduces use cost by 50-100%.

Full-elastomer nose bridge and softer elastomer for superior wearing comfort.

Hygiene Guard storage cap keeps respirator clean and prevents damage to the facepiece.

Reusable Foil Storage Bag plus individually wrapped respirator help assure best respirator life.

Rugged, engineering-grade ABS plastic for frame and cartridges provide durability and trouble free use.

Gerson was recognized by the US Air Force One Detailing Team for providing respirator products for their efforts. See this video (link to left) expressing the team's appreciation of our helping to keep them safe and healthy during this project.

COMPLETE SPRAY PAINT KIT

The most advanced **Paint Spray Respirator** in the market!

VALVE COVER

Covered exhalation valve is protected from paint overspray for safety and longer life

SILICONE RUBBER

Professional-grade Silicone Rubber for outstanding comfort and durability

QUICK ADJUST

Effortlessly accommodate various head sizes with our robust quick-adjust head straps. Experience comfortable cradling through the multi-position head crown.

Completely assembled with OV/P95 filters and ready-to-use!

The next generation of PBE Respiratory protection, with exciting features and a updated design

- Sleek new design.
- Lower cost than the leading brand paint-spray respirator.
- Use as a disposable or replace cartridges.
- A complete Paint Spray Respirator kit at a lower cost than the leading brand disposable half-mask!

QuickDrop™

Experience unmatched convenience with our QuickDrop™ feature. Easily remove respirator without taking off your hat or hood. Keep it ready at your chest for quick access.

Packaging & Contents

1 Pair P95 Filters

NIOSH 95% filter efficiency with solid and oil aerosols.

1 Pair Organic Vapor Cartridges

Effective against certain organic vapors.

Drop Down 9500 Respirator

Professional silicone rubber respirator. Completely assembled with cartridges and filters

1 Pair Filter Retainers

Use to securely retain the filter pads.

Replaceable Cartridge Respirator Kits

PAINT & BODY KIT

With replaceable OV/P95 cartridge and filters + P100 filters

Typical uses: spray painting, sanding, & grinding.

- NIOSH OV/P95 approved. P95 filter provides at least 95% filtration efficiency against solid and liquid aerosols, including oil based aerosols.
- NIOSH P100 pancake filter provides at least 99.97% filtration efficiency against solid and liquid aerosols, including oil based aerosols.*
- Professional Series silicone facepiece provides greater softness, comfort, and durability.
- Easy-to-adjust, comfortable head strap assembly.
- Bonus Hygiene Guard for clean storage and product protection.
- Each kit comes with 1 - silicone rubber half-mask respirator, 2 - P100 pancake filters with OV/AG Nuisance relief *, 2 - G01 Organic Vapor cartridges, 4 - P95 particulate filter pads, and 2 filter retainers.

DESCRIPTION	MODEL #	PART #
Silicone Half-Mask Respirator (med)	9251	089251-KIT
Silicone Half-Mask Respirator (lg)	9351	089351-KIT

Packaging: 1/bag, 12 bags/case

INDUSTRIAL KIT - P100

NIOSH P100 approved. Provides at least 99.97% filtration efficiency against all solid and liquid aerosols, including oil based aerosols.*

Typical uses: welding, mold, smelting, silica and concrete dust. Helps provide protection for certain particulates found in welding at concentrations up to 10X the Permissible Exposure Limits (PEL).

Welding:

- *Helps provide protection for certain particles found in welding at concentrations up to 10X the Permissible Exposure Limits (PEL).*

Mold Remediation:

- *When used in accordance with US-EPA Guidelines.*

Silica & Concrete Dust:

- *To reduce exposure to respirable crystalline silica dusts when used in accordance with OSHA Regulation 29 CFR 1926.1153.*

Smelting:

- *WARNING: Use only in accordance with OSHA use limitations and NIOSH substance-specific requirements. Consult an Industrial Hygienist before occupational use of any respiratory device.*

DESCRIPTION	MODEL #	PART #
Silicone Half-Mask Respirator (med)	9265	089265-KIT
Silicone Half-Mask Respirator (lg)	9365	089365-KIT

Packaging: 1/bag, 12 bags/case

* **WARNING:** Not NIOSH approved for ozone protection, organic vapors, or acid gases. Nuisance Level refers to concentrations not exceeding the OSHA PEL or applicable government standards for exposure limits, whichever is lower. Do not use in or around sandblasting operations.

- Professional Series facepiece provides more comfort and greater durability.
- Easy-to-adjust, comfortable head strap assembly.
- Soft, comfortable silicone facepiece.
- Bonus Hygiene Guard for clean storage and product protection.
- Each kit comes with 1 - silicone rubber half-mask respirator and 2 - XP100 pancake filters.

Replaceable Cartridge Respirator Kits

MULTI-TASK FULL FACE RESPIRATOR KIT

NIOSH Approved

Typical uses: paint spraying, sanding and grinding.

Refer to page 1 for 9955 features and details.

Paint Spray, Body Work and Isocyanate Protection.*

- Demolition - Sanding/Grinding - Concrete Cutting and Drilling - Abatement*

Paint Spray, Sanding/Grinding and Isocyanate Protection.*

Paint Spray, Sanding/Grinding and Isocyanate Protection.*

DESCRIPTION	MODEL #	PART #
Multi-Task Full Face Respirator Kit	9955-2	089955-KIT2

Packaging: 1/box, 2 boxes/case

Multi-Task Kit Contains:

1 - #9955 Silicone Respirator

1 Pair - Organic Vapor Cartridges
Certain organic vapors

1 Pair - P100 Pancake Filters with nuisance level OV-AG relief*.

NIOSH 99.97% filter efficiency. Effective against all solid and oil particulate aerosols. Plus carbon layer for nuisance level relief of irritating effects of organic vapor and acid gases.

Welding, metal pouring, OSHA substance particle exposures, pharmaceuticals, aluminum smelting

2 Pair - P95 Filter Pads

NIOSH 95% filter efficiency. Effective against all solid and oil particulate aerosols.

Grinding, sanding, bagging and other dusty/oily operations

1 Pair - Filter Retainer Rings

For G95P Filter Pads

* WARNING: DO NOT USE in or around sandblasting operations. Pancake filters are not NIOSH approved for ozone protection, organic vapors or acid gases. Nuisance Level refers to concentrations not exceeding the OSHA PEL or applicable government standards for exposure limits, whichever is lower.

Self standing or hangable 11 7/8" high.

BLISTER PACKED FULL FACE RESPIRATOR KIT

- Packaged with #G01 OV Cartridge and P95 Filter.
- One size approved for S, M and L face sizes.

N95 Extreme Comfort™ Particulate Respirators

All products on this page are

MADE
IN U.S.A.

3230 SERIES - N95 RESPIRATORS

Up to 50% lower breathing resistance compared to many molded N95 designs.

Available Berry-Compliant.

- **3230 N95 NIOSH Approved TC-84A-9285.**
- **3230+ FDA-cleared Surgical N95 Respirator TC-84A-9317. This respirator has been approved as a NIOSH N95 filtering facepiece respirator, for use in healthcare settings, as a Surgical N95 Respirator conforming to recognized standards for biocompatibility, flammability, and fluid resistance at 120 mm Hg.**

EXTREME COMFORT™

- Extremely low breathing resistance of 4.1 mm H₂O inhalation and 5.1 mm exhalation - you hardly notice you're wearing an N95 respirator.
- Latex-free synthetic rubber head straps for comfortable tension profile.
- Staple-free smoothness
- No eyewear fogging
- Soft inner lining

HIGHEST QUALITY

- Fluid Resistant – 120 mm Hg
- Meets CDC guidelines for TB exposure control.
- Individually packaged for hygienic handling.

TRUSTED

- Gerson® has been manufacturing NIOSH Approved and FDA-cleared respirators for more than 35 years.
- ISO 9001: 2015 certified manufacturing of respirator protective devices.
- Made in Middleboro, MA

N95 Molded Particulate Respirators

All products on this page are

MADE
IN U.S.A.

1730 - N95 RESPIRATOR / SURGICAL N95 RESPIRATOR

FDA-cleared, NIOSH Approved Surgical N95 Respirator. *Available Berry-Compliant.*
Provides at least 95% filtration efficiency against certain non-oil based particles.

- **FDA-cleared Surgical N95 Respirator TC-84A-0160.**

This respirator has been approved as a NIOSH N95 filtering facepiece respirator, for use in healthcare settings, as a Surgical N95 Respirator conforming to recognized standards for biocompatibility, flammability, and fluid resistance at 160 mm Hg.

Molded N95 Respirator

- More durable, molded double-shell construction for long life and better value.
- Electrostatically-charged filter media provides low breathing resistance.
- Latex-free, staple-free head straps for comfort and safety.
- Contoured aluminum nose-clip provides greater comfort and helps reduce potential fogging.
- Soft foam inner nose cushion.

HIGHEST QUALITY

- Fluid Resistant – 160 mm Hg
- Meets CDC guidelines for TB exposure control.

TRUSTED

- GERSON® has been manufacturing NIOSH Approved and FDA-cleared respirators for more than 35 years.
- ISO 9001: 2015 certified manufacturing of respirator protective devices.
- Made in Middleboro, MA

DESCRIPTION	QUANTITY #	MODEL #	PART #
N95 Respirator	20/box, 12 boxes/case	1730	081730

Molded Particulate Respirators

1740, 1940, 2240 respirator models shared features

- Safer staple-free construction.
- Latex-free, staple-free head straps for comfort and safety.
- Collapse resistant double-shell construction.
- Contoured nose-clip for comfort and reduced fogging.

All products on this page are

MADE IN U.S.A.

1740 - N95 RESPIRATOR

Oversized exhalation valve provides low breathing resistance

- 1740 N95 NIOSH approved TC-84A-0161. N95 Particulate Respirators provide at least 95% filtration efficiency against solid and liquid aerosols that do not contain oil. Electrostatically-charged filter for low breathing resistance

1940 - R95 RESPIRATOR

With Exhalation Valve

Typical uses: Most Welding Applications

- NIOSH R95 approved. Provides at least 95% filtration efficiency against certain solid and liquid aerosols, including oil based aerosols. Flame retardant outer shell.

2440 - P95 RESPIRATOR

With oversized exhalation valve for comfortable breathing

- NIOSH P95 Particulate Respirators provide at least 95% filtration efficiency against solid and liquid aerosols including oil based aerosols. Electrostatically- charged filter for low breathing resistance

1735 - N95 RESPIRATOR

*With Nuisance Level Organic Vapor-Acid Gas Relief**

- NIOSH N95 approved. Provides at least 95% filtration efficiency against certain solid and liquid aerosols, including oil based aerosols.
- Layer of activated carbon provides comfort relief against irritating effects of nuisance levels of organic vapors, acid gas and ozone*.

1745 - N95 RESPIRATOR

*With Exhalation Valve Nuisance and Level Organic Vapor-Acid Gas Relief**

- NIOSH N95 approved. Provides at least 95% filtration efficiency against certain solid and liquid aerosols, including oil based aerosols.
- Layer of activated carbon provides comfort relief against irritating effects of nuisance levels of organic vapors, acid gas and ozone*.
- Premium oversized valve opens easily to expel hot air for cool comfort.

Contaminant-free Storage and Dispensing

1. Place sealed strainer pod into dispenser, with strainer dispensing tabs facing forward.

2. Tear away protective plastic along perforations, then remove.

3. Close dispenser lid and dispense strainers downward one at a time by use of the dispensing tab.

Synthetic Anti-Static Tack Cloths

TEK PREP™ TACK CLOTHS

Continuous Filament Knit Substrate

- Lint free.
- Finished edge and knit construction will not generate lint from rubbing or shed fibers in use.
- Dry, non-transferring formula for waterborne; compatible with all paints.
- Glides smoothly. Very long life.
- Wave-knitted fabric picks up and traps all particulates.
- Anti-static, premium product for refinish professionals.
- Wax and silicone-free.

DESCRIPTION	PRODUCT SIZE	PART #
Tek Prep Tack Cloth (Low Tack)	18"x18"	020009C

Packaging: 12/box, 12 boxes/case

BLEND PREP™ AND AQUATAK™ TACK CLOTHS

Apertured Non-woven Substrate

- Dry formulas for waterborne; compatible with all paints.
- Synthetic, hydro-entangled fibers are locked together for durable, tear resistant, and lint-free fabric.
- Apertured to pick up and trap all particulates.
- Anti-static formula completely removes surface particulates without leaving harmful residues.
- Wax and silicone-free.

Fit Testing Solutions

Qualitative Fit Test Kit

- OSHA approved Fit Test protocol.
- Use with any Filtering Facepiece ("Disposable") and Negative-Pressure Half or Full Face Respirator.
Sufficient solution for up to 55 tests

DESCRIPTION	QUANTITY	MODEL/PART #
Saccharin Fit Test Kit	1	065000
Bitrex Fit Test Kit	1	066000

Each Kit contains the following:

- 1 - Hood
- 2 - Nebulizers
- 1 - Sensitivity Solution
- 1 - Fit Test Solution
- 4 - Replacement Aerosolizing
- 2 - Cleaning Tools
- 1 - Instructional USB Flash Drive

For replacement parts call customer service at 508-947-4000

***Fit Test Kits do not include Respirator**

Quantitative Fit Test Kits

TRAIN THE TRAINER PROGRAM

This USB Flash Drive provides an overview of the OSHA requirements for a respiratory protection program and all the necessary information and forms needed for an individual to become competent to perform qualitative respirator fit testing.

GERSON®

Gerson®-brand products are well known and trusted throughout the world.

With the idea of automating the production of a simple disposable paint filter, Louis M. Gerson started business in 1956 in a small auto-repair garage in Boston, Massachusetts.

The principles of automation and innovation upon which Louis Gerson started his small business, are the core values that have driven the Gerson Company in the following sixty-five years.

Today, Gerson® distinguishes itself as a vertically integrated, prime manufacturer of a full range of air-purifying respirators, from filtering facepieces to half-mask to full face respirators, all products of outstanding design and value.

Filtering facepiece respirators for example, such as our various styles of N95 respirators, have been produced in Middleboro, MA since 1985 on unique, high-speed equipment of our own design and construction, incorporating our own melt-blown filter material to provide high-performing filtration with exceedingly comfortable breathing characteristics.

To remain globally competitive, other respiratory products are produced in overseas assembly operations exclusive to Gerson, again using Gerson-owned and designed equipment, as well as our US-made melt blown filters. Middleboro, MA is also the production site of Gerson paint strainers and tack cloths, all produced on our proprietary automated equipment to our exacting quality standards that deliver consistent user value.

The Gerson spirit of over sixty-five years of manufacturing and product innovation remains strong. We are ready to serve your needs.
